- **6"** recessed, paired slot luminaire in **48"** or **72"** nominal lengths
- Tool-less, room side access via release pins for easy maintenance
- Tunable White technology available for dynamic lighting control
- Optional low-voltage controls

Create a calming, functional environment with the MedMaster Pillow™ Slot Series—where refined design and advanced performance work in harmony. These paired 6" slot luminaires bring style and versatility to patient spaces by delivering:

Distinctive dual-slot design: Curved-sided apertures paired with a high-efficiency diffused acrylic lens, available in 48" or bed-length 72" sizes for tailored room integration.

Seamless multi-function lighting: Uniform, shadow-free illumination for Ambient and Exam modes with asymmetric distribution for optimal task performance.

Visual comfort: Low glare from the patient's vantage point to promote relaxation, and from the clinician's vantage point to improve performance.

Optional Tunable White technology supports circadian rhythms and user preference, while low-voltage controller options empower patients with greater autonomy. A tool-less release system ensures easy maintenance, all backed by Kenall's trusted performance. Elevate patient spaces with a luminaire designed for comfort, care, and convenience.
