

Increased Safety and Sustainability with LEDs

Location: Warren County, VA
Details: RSW Regional Jail
Architect: Moseley Architects
Photo supplied by Chris Cunningham Photography

“Specifying these state-of-the-art LED fixtures meets the project’s sustainability objectives and provides an excellent solution to reduce energy consumption and costs, and without compromising security.”

– Carrie Henaghan, RSW Project Manager, Moseley Architects

Project Summary

Challenge: Selection of lighting to meet security, safety and supervision levels and sustainability goals.

Solution: Mighty Mac™ 50W, 4000K ceiling-mount LED fixtures with a separately-switched night light.

Benefit: Reduced cost and energy consumption without compromising security.
