Kenall Delivers Task Lighting on KUE

Introducing the new MedMaster® KUE™ Task Light for Behavioral Health Environments

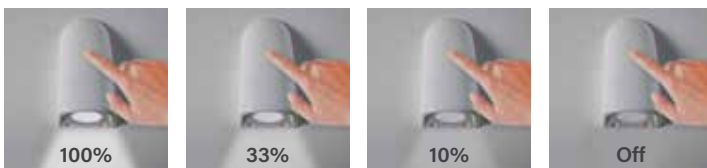

MedMaster (KUE BSHS Series)

- Delivered lumen range: 227 - 332 lm
- Input power: 5.4 - 6.6W
- Efficacy: 34 - 61 lm/W
- Durable, one-piece, die-cast aluminum outer housing with obscured, tamper-resistant mounting hardware
- On/Off and intensity control either via capacitive, 3-step, touch or external 0-10V dimmer
- 90 CRI standard with narrow & wide distribution options

Designed to fit the unique needs of behavioral health environments, the **MedMaster KUE (BSHS Series)** prioritizes patient and staff well-being with its soft, contoured design that harmonizes with healing environments. Featuring a smooth, ligature- and tamper-resistant profile, and impact-resistant lens, KUE provides exceptional safety and durability.

Available in a wide range of standard and custom colors, the KUE offers narrow and wide distribution options and ease of operation, with intuitive, touch control, three-step dimming. Engineered to meet rigorous performance standards, including IP65 and IK10, the MedMaster KUE is discreet in design, while robust in performance, making it the ideal choice for healthcare and behavioral health applications.
