# Millenium™ and SimpleSeal™ Luminaires using Millenium™ Technology

Add the Power of Disinfection to High Abuse Lighting

Millenium Stretch<sup>™</sup> MLHA Series White disinfection mode 5"×48", 8"×48", 12"×48"

SimpleSeal<sup>™</sup> HASEDI Series White disinfection mode 1'×4', 2'×2', 2'×4'

## Safely kills Staph, such as MRSA, using **(Indigo-Clean™Technology**)

Millenium<sup>™</sup> Stretch (MLHA) and SimpleSeal<sup>™</sup> (HASEDI) luminaires utilize a new, safe and state-of-the-art technology to protect athletes and athletic club members from harmful Staph<sup>\*</sup>, including MRSA<sup>\*\*</sup>. These revolutionary new LED luminaires combine white ambient light with 405nm Indigo light technology providing on-demand Environmental disinfection.

- Standard, white luminaire that provides on-demand disinfection when light is on
- Kills Staph when used as directed
- Light is safe for occupants, unlike UV disinfection
- Laboratory tested disinfection
- Provides a cleaner, safer environment, even in areas normal cleaning doesn't reach

# **On-Demand Environmental Disinfection Lighting** that Fits Your Budget

Prevent the spread of staph, including MRSA\*, with these unique LED luminaires that combine white ambient light with 405nm Indigo light providing on-demand environmental disinfection.

### How It Works:

- The 405nm light targets bacteria and produces intra-cellular Reactive Oxygen Species (ROS).
- Similar to bleach, these ROS kill the bacteria and prevent it from re-populating the space.
- The 405nm emitted from Indigo-Clean Technology reflects off of walls and surfaces.
