Indigo-Clean MEIC operates in ambient white disinfection mode to both disinfect and light the room when it is occupied, or in indigo mode for safe, maximum disinfection when the room is unoccupied. MEIC supports the patient, the patient care team and the hospital environment by killing harmful bacteria, including MRSA** and other ESKAPE pathogens, while the room is in use, and the luminaire is also sealed to prevent the spread of infection.

** Proven to Kill Staph* including MRSA
