Kenall’s New LuxTran™ Wayfinding Marker Lights for Driver Safety that’s Ahead of the Curve

Traveling through a tunnel can sometimes be intimidating: it’s important to ensure drivers will feel confident and safe – whether they are driving at full speed or attempting to locate phones and exits during an emergency. Kenall’s new LuxTran™ Wayfinding Marker Lights helps guide drivers safely through the tunnel, and directs them to phones and emergency exits should the need occur – helping enhance driver and pedestrian safety in a way that’s distinctly ahead of the curve.

The LuxTran Wayfinding Marker Light is the only light of its kind to offer 5 colors: white, red, green, blue or amber, for all tunnel wayfinding and emergency marker needs. It offers LuxTran tunnel lighting’s signature features, including a rugged design that resists corrosion and reduces nuisance glare.

- 6L LED available in white, green, red, blue or amber
- 2 serviceable high-brightness 12-LED arrays
- Optics specifically designed for tunnel applications
- 3G vibration tested
- Suitable as a drive lane, walkway, marker or beacon light
- Type 304 or 316 stainless steel housing for corrosion resistance
- Buy American Act Compliant: manufactured in the United States with more than 50% of the component cost of US origin.

For additional information on Kenall’s new KB510, contact tunnel lighting expert Michael Maltezos at mmaltezos@kenall.com or (847) 507-4531.
PRODUCT FEATURES:
» Suitable for use as pathway, beacon or marker light
» Optical configurations designed for tunnel lighting applications
» Stainless steel structural construction
» 10 Year limited product warranty

SPECIFICATIONS
HOUSING: 18-gauge Type 304 or Type 316 stainless steel enclosure with one-piece, seam-welded construction; 2B finish; all welds passivated. 16-gauge die-formed mounting plate; custom mounting detail to tunnel structure available.

GASKETING: One-piece diecut closed cell silicone foam.

OPTICS: Clear tempered glass or polycarbonate lens and polycarbonate color filters.

ELECTRICAL: Two serviceable high-brightness 12 LED arrays. Available with 24VDC or 120-277 VAC, 50/60Hz single-phase input; <20% THD, >0.90 PF.

INSTALLATION: Wall or ceiling orientation. Mounting hardware provided by others. Wire leads extend from back of luminaire through IP67 rated potted hub.

PHOTOMETRICS: Photometry tested to the IESNA LM-79-08 standard by an ILAC/ISO17025 accredited laboratory. For additional photometric data, please go to www.kenall.com.

WARRANTY: Limited ten (10) year warranty.

LISTINGS: Luminaire is certified to UL Standards by Intertek Testing Laboratory for Wet Location. IP67 rating per IEC 60598. Rated to NEMA 4X. Luminaire is 3G vibration tested per ANSI C136.31. Passes ANSI C136.27-2012 qualification test.
