With its slim, attractive design, Kenall’s new edge-lit Low Profile Sconce™ — available in surface or semi-recessed wall-mount options — is a decorative, durable luminaire designed to function in a variety of environments. Mix and match from six frame finishes and seven decorative lens options including custom graphics and colors. The surface wall mount fixture provides soft backlighting onto the wall surface resulting in a pleasing visual accent, and adding a soothing aura of light to any space.
