- Tool-less access and removal of light engine/optical assembly from raceway enclosure
- Serviceable high-brightness LED array
- Clear tempered glass or polycarbonate lens
- Type II, Type V-Narrow Round, Type V-Square and Pro-Beam optical distribution types
- 100W; 4000K, 5000K, 5700K
- 65 CRI minimum
- 10-year limited product warranty

#### Tunnel Lighting

Kenall's NEW LTL LED Series tunnel luminaire is rigorously designed and tested to meet stringent performance standards necessary for tunnel lighting applications. With the RD700 distributed DC driver system remotely-located, servicing is convenient. Kenall tunnel luminaires are completely customizable to address the highly complex and challenging needs of tunnel applications.

Contact Michael Maltezos at 847-507-4531 or [Mmaltezos@kenall.com](mailto:Mmaltezos@kenall.com) to assist you with your next tunnel project.
