

Millenium OS™

Luminaire with Integrated Occupancy Sensor for Stairwells and Public Places

Dial up energy savings with the new Kenall Millenium OS™ LED stairwell luminaire. The concealed high frequency Doppler sensor provides the flexibility to dim to 10% during non-occupied periods for increased energy savings. This vandal-resistant luminaire maintains optimal performance in both cold and ambient temperatures. Optimized for stairwells, this product is also suitable for any interior or exterior application. Offering Kenall's exclusive Peace of Mind Guarantee® AND a 10-year limited lifetime warranty, the MOS can be specified with confidence.

Millenium OS™ (MOS Series)
