SenScape™ PG Luminaires

LED

NEW Low Profile Luminaire Delivering Low Glare and High Lumens, Ideal for Covered Parking Deck, Canopy and Low-Bay Applications

SenScape™ with optional debris shield (-DS)

Extending the Parking Series with SenScape™ PG

Kenall is pleased to introduce SenScape PG, the newest luminaire in our parking series. The SPG18 offers all of the same great features as our popular TekDek™ fixture—including low glare and high efficacy—in a new, low profile design aesthetic. Ideal for covered parking applications, the fixture boasts 10% uplight—a highly desirable feature in many parking garage applications.

Product Features:

- 5,000 – 10,500 delivered lumens
- 100 – 120 LPW
- UV-Stabilized, High Impact Resistant Polycarbonate Housing
- Textured tertiary lens for glare reduction
- Desirable 10% uplight; eliminates the 'cave-effect'
- IP65-rated construction
- Embedded microwave sensor offers an industry exclusive Peace of Mind Guarantee®
- Optical patterns designed specifically for covered parking, canopy, and low bay applications
- Compatible with Kenall's TekLink™ lighting control technology
