STRATALUME CONNECTS™

AUC/MAUC SERIES - LED

PRODUCT FEATURES:

- » Available in multiple lengths to fit any application
- » External mounting feet allow for easy installation
- » Antimicrobial finish standard when used in Healthcare applications

Wiring Module w/ Hospital Grade Outlet Wiring Module w/ Rocker Switch Power Cordset Interconnect Cordset

PROJECT INFORMATION Job Name _____ Fixture Type____ Catalog Number____ Approved by _____

SPECIFICATIONS

HOUSING: Extruded marine-grade aluminum. TGIC polyester powder coat finish with five-step pretreatment. Antimicrobial finish standard on housing and driver cover with MAUC series only.

LENS: UV-stabilized, high-impact resistant, extruded frost 100% DR acrylic. Smooth exterior, linear prism interior. Snap-in tool-less entry design.

END CAPS/COVERS: UV-stabilized, high-impact resistant, injection-molded white or black opaque polycarbonate. Black end caps/covers provided when silver finish (SL) is ordered. Light leak-preventing interlocking design.

GASKET: Closed-cell extruded EPDM gasket seals lens to end caps (MAUC series only).

ELECTRICAL: LED array with electrically-isolated thermal pads. Maximum 3-step MacAdam variation allowance. See Ordering Information for color temperature options. 80CRI minimum. 120-277VAC, 50/60Hz input with replaceable high power factor electronic constant-current driver (<20% THD, >0.90 PF). Standard 0-10V dimming with 5-100% range; 200µA max. source current. EMC meets or exceeds FCC CFR Part 15. Male and female grounded connectors provided at ends of series-mount fixtures. See Options and Accessories for additional electrical capabilities.

ELECTRICAL ACCESSORIES: Wiring modules available with 15 amp hospital grade outlet or master switch. Construction and installation match fixtures. Cordsets: Custom-molded plugs, SVT cord, snap-together design. Power cordsets connect to left side of fixture series; 120V wall outlet powered, 6 amps max. Interconnect cordsets electrically connect fixtures. Available in white or black finish.

INSTALLATION: External mounting feet allow installation without accessing internal compartments. Four-point mounting required for individual fixtures and initial fixture in series-mount run. Two-point mounting required for subsequent series-mount fixtures. UL fitting for 3/8" flexible conduit or NM wire supplied. Direct wire in rear of fixture uses push-in connectors behind quick-access cover. Direct wire into sides of fixture uses included adapter plate. Maximum current of series-runs 6 amps per circuit (see table on page 3).

WARRANTY: Limited five (5) year LED warranty.

LISTINGS: UL and CUL listed for Damp Location. Cord-equipped models listed as Portable Luminaires. NSF2 Splash/Non-Food Zone (MAUC series only). Photometry tested to the IESNA LM-79-08 standard by an ILAC/ISO17025 accredited laboratory.

DIMENSIONAL DATA

LENGTH DIMENSION							
		Х	Max Current				
MODEL	LENGTH	(in)	120V	277V			
11L	18"	18.00	0.12	0.06			
11L	24"	24.00	0.12	0.06			
16L	36"	36.00	0.15	0.07			
20L	48"	48.00	0.19	0.09			
WML	-	6.00					
WML/HGO	-	8.00					
WML/SW	-	6.00					

NOTE: Subtract 0.54" for each end cover removed to get overall length in series mount applications. When ordering the power or interconnect cordset, allow at least 2" clearance on the side of the fixture. To calculate maximum allowable fixtures in a series run, divide 6 amps maximum current by the maximum current of each fixture.
