

# LED HIGH BAY MAX™ OUTPUT

## Luminaires for High Bay Applications

### HBMO SERIES

#### PRODUCT FEATURES:

- » Lumen outputs ranging from 23,500-35,000lm
- » Textured tertiary lens for glare reduction; flat and drop lens
- » Various distribution patterns available, including Aisle-Lighter
- » Suspended ceiling mount; pendant, trunnion and loop hanger

#### PROJECT INFORMATION

Job Name \_\_\_\_\_

Fixture Type \_\_\_\_\_

Catalog Number \_\_\_\_\_

Approved by \_\_\_\_\_

#### SPECIFICATIONS:

**HOUSING:** Marine-grade die-cast aluminum construction. Integral aluminum heat sink with concealed air inlet and convection fins. All power electronics removed from primary thermal path; all drivers with dedicated heat sink to exterior of luminaire. TGIC polyester powder coat finish with five-step pre-treatment; salt-spray test 1,000 hours. See Ordering Information for available finishes. Closed-cell silicone gasketing at all housing interfaces.

**OPTICS:** Type II, III, IV, V-Narrow Round, V-Wide Square or Aisle-lighter optical distributions. Clear textured acrylic or polycarbonate tertiary flat lens for full-cutoff applications or injection-molded clear textured acrylic or polycarbonate tertiary drop lens for uplight and enhanced glare control.

**ELECTRICAL:** Replaceable high-brightness LED array. See Ordering Information for color temperature and CRI options. 120-277VAC, 347VAC or 480VAC, 50/60Hz input with replaceable high power factor electronic constant-current driver (<10% THD, >0.95 PF). Standard 0-10V dimming with 10-100% range. Minimum 85% driver efficiency. EMC performance compliant with FCC CFR Part 15. Standard 20kV/kA surge protection to IEEE/ANSI C62.41 Cat. A.

**TEKLINK™ TL50:** An independent lighting control system integral to the luminaire, featuring its own occupancy sensor, daylight harvesting and adjustable time-out/dimming settings. Three different programs are available, each governing system behavior in normal operation; On-to-Dim Daylighting, On-to-Off Daylighting, and Occupancy Only.

**TEKLINK™ TL100:** Centralized, wired zonal occupancy and closed-loop daylight harvesting control system. TL100 controllers are standalone devices and ordered separately for luminaire. [Click here for specifications.](#)

**TEKLINK™ TL1000/2000:** An adaptive lighting control system with wired or wireless communication between system nodes. In addition to occupancy detection and daylight harvesting, TL1000 and TL2000 feature advanced scheduling and energy management capabilities with cloud-based management of system settings, reporting and notifications.

**INSTALLATION:** PENDANT: Sealed threaded hub supplied for 3/4" rigid pendant. Pendants by others. LOOP HANGER: Sealed hub with loop style hanger and 6' black power cord. IP65 rated quick connector. Hook by others. Center of gravity is along center axis of luminaire. TRUNNION: Length-adjustable trunnion bracket system with 6' black power cord and IP65 electrical hub.

**PHOTOMETRICS:** Photometry tested at 25°C. Photometry tested to the IESNA LM-79-08 standard by an ILAC/ISO17025 accredited laboratory. For additional photometric data, please go to [www.kenall.com](http://www.kenall.com).

**WARRANTY:** Limited five (5) year warranty.

**AMBIENT TEMPERATURE RATING:** Product is rated for -40°C to 40°C ambient environments.

**LISTINGS:** Luminaire is certified to UL Standards by Intertek Testing Laboratory for Wet Location. IP65 rating per IEC 60598. For maximum efficiency, Kenall recommends TekLink™ controls. For more information, visit [www.kenall.com](http://www.kenall.com).

#### ORDERING INFORMATION (Ex: HBMO26-PM-5S-DTA-DB-408L57K-DV)

Displayed information above is for luminaires within a 25° ambient environment. Additional optical distributions are also available. Visit [www.kenall.com](http://www.kenall.com) for IES files and additional information.

Model: HBMO26-PM-5N-DTA-MW-300L40K-DV

Maximum Candela = 7959 Located At Horizontal Angle = 0, Vertical Angle = 0

- 1 - Vertical Plane Through Horizontal Angles (0-180) (Through Max. Cd.)
- 2 - Horizontal Cone Through Vertical Angle (0) (Through Max. Cd.)

Model: HBMO26-PM-5S-DTA-MW-300L40K-DV

Maximum Candela = 17,321 Located At Horizontal Angle = 45, Vertical Angle = 70

- 1 - Vertical Plane Through Horizontal Angles (45-225) (Through Max. Cd.)
- 2 - Horizontal Cone Through Vertical Angle (70) (Through Max. Cd.)
