

# MILLENIUM METREX™

## METESW SERIES

### PRODUCT FEATURES:

- » Surface wall mount – Single Face
- » Indirect LED with life up to 50,000 hours
- » Cooler operation and simpler testing protocol

### PROJECT INFORMATION

Job Name \_\_\_\_\_

Fixture Type \_\_\_\_\_

Catalog Number \_\_\_\_\_

### SPECIFICATIONS

**HOUSING:** High impact, injection molded polycarbonate. Housing provided with four-point mounting holes, one wireway hole and temporary junction box mounting drill points – see Cross Section/Details. Closed cell die-cut Neoprene gasket seals housing to mounting surface.

**SHIELD:** UV-stabilized, high impact, injection molded clear polycarbonate. Nominal thickness .120". Corrosion resistant Phillips head fasteners secure shield to housing. Continuous closed cell silicone gasket seals shield to housing.

**LEGEND:** Legend illuminated by internal high output LEDs. Lettering height and stroke determined by legend option. Polycarbonate red or green filter panels. Stencil is 18-gauge laser cut steel with TGIC polyester powder coat finish to match housing.

**ELECTRICAL:** 624 nm Red, or 527 nm Green LED light source. Electrical components mounted to removable high impact, injection molded polycarbonate chassis. Drill points provided for optional conduit entry.

**OPTIONS:** Sealed nickel-cadmium Emergency Battery Pack (EL) with standard deep cycle battery conditioning, self test and self diagnostic circuitry, remote laser activated test switch, protected mechanical test switch and status indicator. Provides 120 minutes of emergency operation. The Emergency Battery Pack (EL) is suitable for 10°C to 45°C (50°F to 113°F). Cold Weather Emergency Battery Pack (CEL) suitable for -45°C to 45°C (-49°F to 113°F).

**INSTALLATION:** Standard four-point mounting required for Peace of Mind Guarantee.

**LISTINGS:** UL and CUL listed for Wet Location. UL certified IP64 per IEC 60598. Meets or exceeds UL924 and NFPA 101 standards. Meets or exceeds CSA and NRCAN requirements. NSF2 Splash/Non-Food Zone.
