

MEDMASTER PATIENT WALL SWITCH

for Multi-Function Luminaires

MPWS SERIES

PROJECT INFORMATION

Job Name _____

Fixture Type _____

Catalog Number _____

Approved by _____

PRODUCT FEATURES:

- » Controls up to four separate lights/loads
- » Quick on/off of any light (load)
- » Provides easy access for clinicians
- » Seamlessly integrates with any nurse call system
- » Allows staff to dim the lights when used with Kenall LVCD

SPECIFICATIONS

ELECTRICAL: Dry contact, momentary, normally open switch, capable of switching 5 VDC at 0.5 mA.

PRODUCT DESCRIPTION: Stainless steel wall plate with silkscreen overlay graphic unique to specified configuration. Up to four (4) momentary close membrane switches to provide low-voltage trigger of luminaire low-voltage controller (LVC) device. When used in conjunction with the dimming LVC (LVCD) luminaire option, a prolonged button press on applicable functions allows dimming of the respective lamping function. See individual product specification sheets for details.

INSTALLATION: Wall plate mounts with two (2) provided Philips-head fasteners to a single-gang wall box. Stranded 22AWG wire leads provided.
